The 4th European Course in Endonasal Rhinoplasty – Regensburg 2025

Dear Colleagues and Friends:

The minimally invasive character of the endonasal operation has created a significant shift towards the endonasal operation. Patients are increasingly requesting soft, minimally invasive techniques and conservative approaches. The minimally invasive character of the endonasal operation has created a significant shift towards these soft approaches. The present course introduced the concept of dedicated endonasal events in Europe. After three successful, sold-out meetings, we are pleased to invite you to the 4th endonasal course in Regensburg.

You will be presented with coherent solutions through deformity – oriented, encompassing presentations. You will return convinced of the suitability of the endonasal operation to maximize preservation of skeletal structures and soft tissue compartments. Current controversies including management of the dorsum, extent of required exposure and indications for costal cartilage grafting will be discussed. Further highlights will include:

- understand and meet the patient’s desires
- achieve naturally appearing results
- maintain a soft feeling nasal tip
- maximize patient comfort
- minimize tissue trauma
- utilize local anaesthesia

On a full day of anatomic dissections you will practice all endonasal (and open) rhinoplasty approaches and techniques under expert mentoring. Basic and advanced concepts will be presented.

Regensburg is one of Germany’s most wonderful medieval towns, relaxing yet vibrant. Travel is easy through Munich airport, and excellent hotels are affordable.

The European Course in Face Lift and Rejuvenation Surgery will take place back to back from May 4th to the 6th. Benefit from the opportunity of registering for both courses and maximize your learning experience.

Please join us for these unique events

Holger G. Gassner
Abel-Jan Tasman

Preliminary Program

Wednesday April 30th

18:00–19:30 Welcome Reception for all attendees at the Finesse Center, Fröhliche Türken Str. 8

Thursday May 1st

08:15–08:30 Welcome address Bohr, Tasman, Gassner

08:30–08:40 Education and Certification Tasman, Gassner

08:40–09:00 Surgical anatomy Bohr

09:00–09:20 Endonasal incisions and approaches Abikanaan

09:20–09:40 Which endonasal approach when Gassner

09:40–10:10 Dorsal reduction – methods, techniques, indications Ferreira

10:10–10:30 Break

10:30–13:30 Live Surgery (Surgeon Gassner) Tasman, Ferreira

13:30–14:00 Lunch Break

14:00–14:45 Strategies to incorporate endonasal into your practice Gassner

14:45–15:15 Break

15:20–15:40 Management of the dorsum – 15.000 cases over 50 years Pastorek

15:40–16:10 Spare Roof Technique B in the era of preservation Ferreira

16:10–17:30 Interactive case discussions:

16:10–16:25 The wide tip Hanga

16:25–16:40 The twisted middle third Berasain

16:40–16:55 The saddle nose Tasman

16:55–17:10 GPA reconstruction Gassner

17:10–17:30 Discussion – bring your own case

19:30 Course Dinner

Preliminary Program

Friday May 2nd

09:00–09:20 Management of the nasal valve Haubner

09:20–09:40 Controversies around the middle vault Tasman

09:40–10:00 he asymmetric nose: Logical solutions Gassner

10:00–10:30 Break

10:30–11:00 Preservation techniques to correct asymmetries Ferreira

11:00–12:00 Interactive case discussions Tasman, Ferreira, Gassner

12:00–13:00 Lunch Break

13:00–13:30 Managing the saddle nose – the Reverse Spare Roof Technique Ferreira

13:30–13:45 Endonasal Cleft Rhinoplasty Abikanaan

13:45–14:15 Break

14:15–16:00 Cases: Preventing and managing suboptimal outcomes Tasman, Gassner, Ferreira

Saturday May 3rd

09:00 Registration

09:30 Dissections, Anatomy Laboratory

12:00 Lunch

15:00 End of course
